NetMinder Application

NetMinder provides a simple way to manage any on-line Net, regardless of the Net's schedule. Whether your Net is held once a month, twice a month, once a week, twice a week, weekdays, weekends or even daily; **NetMinder** can handle the task.

NetMinder starts with a robust listing of local ham radio operators.

Three methods of lookup of hams in the list make adding contacts simple and fast. Hams that are not currently in the list can be added quickly while the Net is running without causing delays.

Attendees are logged into the Net by Call Sign, Name, Date and Time.

NetMinder also maintains a permanent record of attendees from present and past Nets.

All information contained in the listing is editable at the click of a button.

Best of all, **NetMinder** is free of charge and available to all hams that run a Net or aspire to run one! For more information, send an e-mail to KE5BG@arrl.net and be sure to use **NetMinder** in the subject to catch my eye.

Thanks,

Dan KE5BG
